These payments can help cover some but not necessarily all of the costs associated with services and treatments you may need. Any amounts due providers after the GLI benefits have been paid are the responsibility of the insured.

## What is covered under my plan?

The GLI policy and riders provide coverage to help with expenses like doctor visits, hospital services, lab/x-ray and prescription drugs. Plans may include coverage for routine sickness, off-the-job accidents, and hospital confinement. Coverage varies based on the plan and level selected. Full details of the benefits, limitations and exclusions are contained in each policy.
